

Miata Club Address Book

The address book allows only active club members to register and view member information. When you register, your email address is checked against the club member database. If you see the following error message: **Authorize - You are not a valid member in the Miata Club Database.** the possible problem is:

1. You are not an active member of the Miata Club
2. Your email address is incorrect in the Miata Club member database.
3. You can't type your email address correctly.

If you are an active member and your email does not work, contact either webmaster@miataclubmn.com or secretary@miataclubmn.com and have them check or update your information with the correct email address.

Click "register" to start the registration process.

To upload a picture, click browse and navigate to picture you would like to use. The maximum size picture that will be accepted is 3000x2300 pixels. Once you have your information filled in, click the save option and you will then see what your Address Book entry will look like. If you need to make changes just click 'edit' and correct the entry.

The little "?" at the end of each category will open up help for that category.

This is what the Address Book list looks like once you are signed in.

The entry that is green is the only entry you are allowed to edit.

To change your password use the "personal settings" button at the top of the entries list.

If you want to see all the entries expanded, click "expand" just above "All Entries" title.

Click the "search" button where you will be able to search for a member name, car year, car color, or car plate. You don't have to know the whole name, just enter in what you know.

Example: car color – "bl" will find all the car colors with "bl" in the name.

Name – works the same way, you only need to know the first few letters of the name you are searching for, first or last name.

And below is what it looks like when you click on the plus or click on the name.
